Every flight has a story

The Journey behind FLIGHT

FLIGHT is the result of two organisations, **two histories** and one shared purpose: to improve Aviation English education through cooperation and innovation.

1989

FELTOM is Established

FELTOM is founded in Malta to promote quality, professionalism and student-centred learning in English language education.

2023

Aviation Education Complex is Established

The Aviation Education Complex in Pleven (BAFA) is established, bringing modern training facilities and a strong focus on aviation excellence.

2025

A Connection is Made

The non-resident Ambassador of Malta to Bulgaria introduced FELTOM and BAFA. The two organisations meet to explore common goals and share expertise.

2026 - 2027

FLIGHT Takes Off

Our shared vision becomes a reality with FLIGHT — an Erasmus+ partnership focused on Aviation English education and innovation.

The Challenge

Why this FLIGHT matters

Aviation English sits between several worlds:

Language
teaching quality

Aviation
Technical context

Safety
Clear communication

Labour Market
Professional requirements

The FLIGHT we take us

A step-by-step approach to real change

Malta ✈ Bulgaria

The Maltese delegation travelled to Bulgaria to experience a different aviation training environment, meet local experts, explore identified needs and begin shaping the toolkit together.

7 People | **7** Days | Malta → Sofia → Pleven

Military-style aviation training

- Training facilities visits
- Observation of practical training sessions
- Understanding real training conditions

Bulgarian aviation experts & institutions

- Meetings with aviation schools and experts
- Needs assessment & interviews
- Chamber of Commerce engagement
- Cultural exchange & local insights

Toolkit framework & material development

- Defining the toolkit framework
- Identifying content & resources
- Collaborative material development
- Aligning with real training needs and standards

Ladies and gentlemen, our cabin crew will now pass through with snacks and FLIGHT souvenirs available for purchase. Enjoy!

From Conversation TO CREATION

The Aviation English Teaching Toolkit

Turning collaboration into practical tools that make a real difference in the classroom and in the cockpit.

WHY

Aviation English is complex and specialised. Teachers need support that reflects real communication in real aviation contexts.

WHAT

A collection of ready-to-use materials, activities and resources designed to support effective teaching and learning in aviation English.

HOW

We combine needs analysis, expert input, teacher training and peer collaboration to create practical, high-quality, classroom-tested materials.

WHOM

Designed for anyone who teaches or trains aviation professionals and wants to strengthen communication, safety and performance.

The People on this FLIGHT

More than partners.
One aviation community.

FLIGHT brings together the people who shape aviation learning - from the classroom to the operational environment

Teachers

Designing and delivering the learning journey.

Trainers

Building skills and supporting professional growth.

Students

Building the confidence to communicate safely.

Aviation Professional

Putting Aviation English into practice every day

Schools

Creating an environment for learning and innovation.

Stakeholders

Connecting and strengthening the aviation education ecosystem.

European Partners

Working across borders for shared standards and stronger impact.

Different roles. One purpose.
Stronger Aviation English Together.

MT 35°54′00″N 14°31′00″E ---------- FL1021 ---------- **BG** 42°44′N 25°29′E

The flight continues in the opposite direction

Bulgaria ✈ Malta

Coming in October 2026

Bulgarian partners travel to Malta to experience the country's Aviation English teaching approach, visit five FELTOM member schools and observe classroom methodologies in practice.

7 People | **8** Days | Pleven → Sofia → Malta

SEE
Five FELTOM Aviation English schools

Visit five leading Aviation English schools in Malta and discover their learning environments and educational approaches.

OBSERVE
Classroom teaching

Observe real classroom sessions and see how Aviation English is taught in practice.

EXCHANGE
Teaching methodologies

Share ideas, discuss methodologies and learn from different teaching practices.

CONNECT
Malta stakeholders

Meet key stakeholders in aviation and education and build connections that strengthen our collaboration.
