What is FLIGHT?

Connecting Pilots Through Aviation English

Malta ------- ✈ ------ Bulgaria

Co-funded by the European Union

FLIGHT connects language teaching expertise in **Malta** with aviation training expertise in **Bulgaria**.

"Clear Communication. Safe Skies."

From the classroom to the cockpit, language connects every flight.

118.000 MHz

FLIGHT is an **Erasmus+ project** created to improve Aviation English training. Through cooperation, teacher development and practical resources, the project aims to close skill gaps and support high communication standards in aviation.

Teaching Quality

Improve Aviation English teaching methods and resources.

Skill Development

Connect training more closely with labour market needs

Communication Standards

Support high communication standards in aviation.

European Cooperation

Build a strong partnership between Malta and Bulgaria.

Practical Resources

Develop up-to-date teaching materials for real aviation scenarios.

Quality Assurance

Support reliable and relevant vocational education.

How it started

From a Local connection to a European Partnership

A journey of collaboration, shared vision and impact.

Connection Established

The non-resident Ambassador of Malta to Bulgaria introduced the two organisations.

Ideas Exchanged

FELTOM and BAFA met to explore common interests and share expertise.

Shared Vision

Both organisations recognised the value of combining language education with aviation training.

Partnership Formed

Their shared vision evolved into a formal Erasmus+ Collaboration.

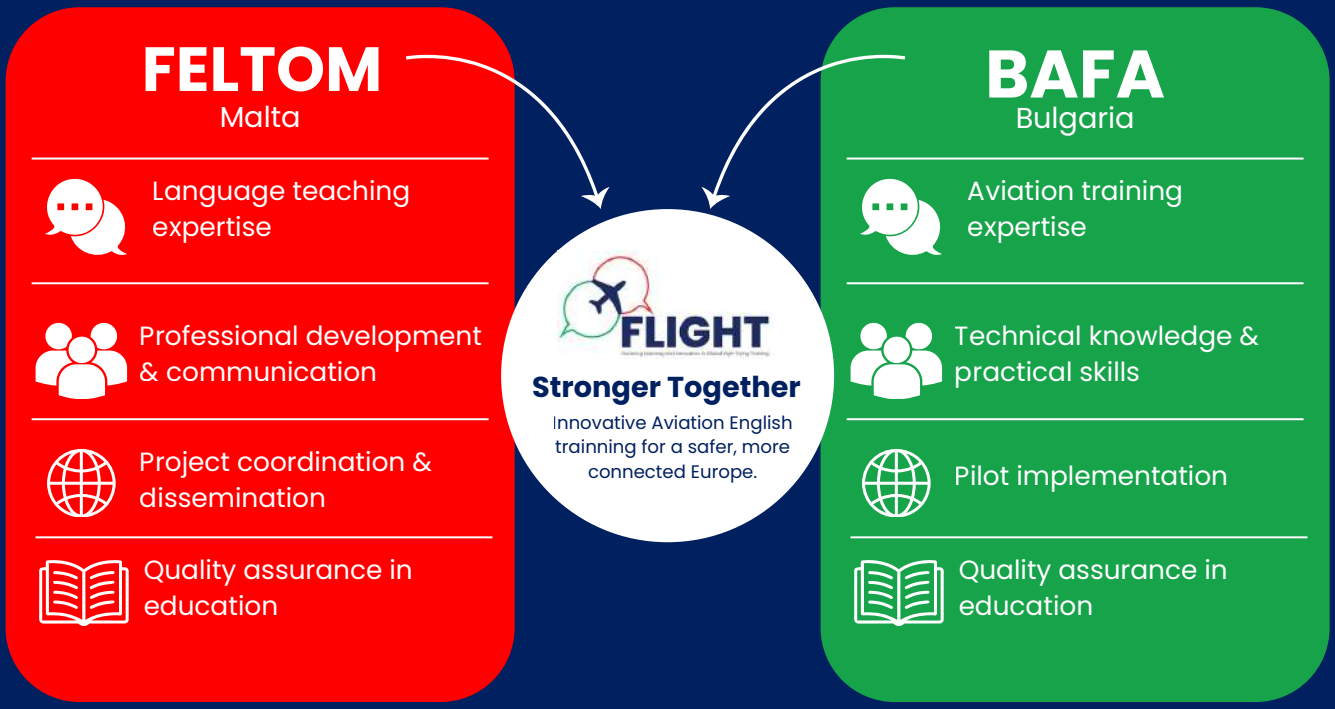

FLIGHT LAUNCHED

The FLIGHT project was created to turn this collaboration into innovative and practical educational outcomes.

Stronger Together

Combining complementary expertise for greater impact

FLIGHT unites the strengths of two organisations from Malta and Bulgaria to deliver innovative Aviation English training that makes a real difference.

Cabin Crew

Meet our FELTOM member schools, bringing English language expertise to Aviation English training and helping prepare learners for careers in aviation.

What FLIGHT Aims to Achieve

Four clear goals guide the partnership.

Together, we turn shared ambitions into clear, measurable goals that drive the project forward.

01

Strengthen collaboration

Build long-term cooperation between education and aviation partners.

02

Exchange knowledge

Share teaching expertise, practical experience and European best practices.

03

Create European impact

Improve vocational education and support high communication standards.

04

Develop future opportunities

Create a sustainable toolkit, online resources and new professional connections.

Before we take off, please take a moment to review our safety procedures. Your safety is always our priority.

118.000 MHz

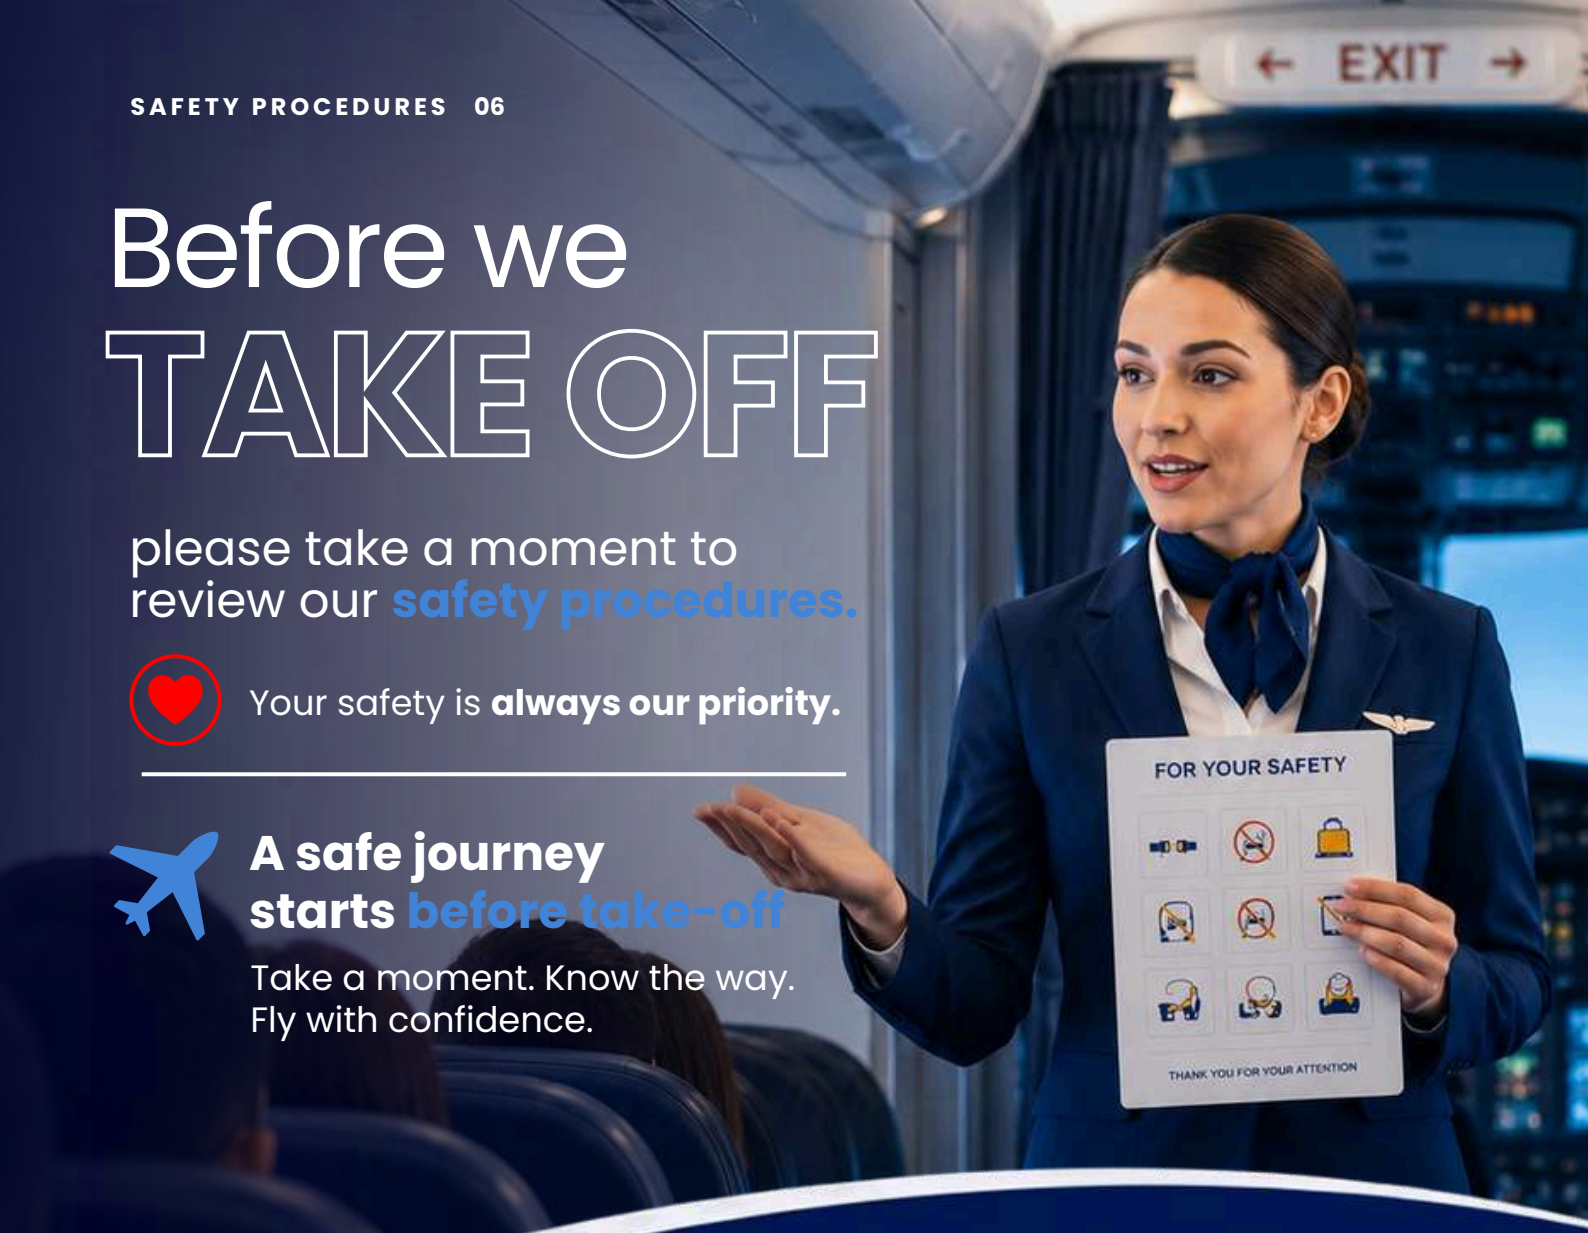

Before we TAKE OFF

please take a moment to review our **safety procedures.**

Your safety is **always our priority.**

A safe journey starts before take-off

Take a moment. Know the way.
Fly with confidence.

FASTEN YOUR SEATBELT
Keep it fastened while seated.

SWITCH OFF ELECTRONIC DEVICES
Or set them to airplane mode.

STOW YOUR CARRY-ON LUGGAGE
In the overhead bin or under the seat.

IN CASE OF EMERGENCY, FOLLOW CREW INSTRUCTIONS
We are here to help you.

LIFE VESTS ARE UNDER YOUR SEAT
Familiarise yourself with its location.

LOCATE THE NEAREST EXIT
And count the rows away from you.
